

Our Practice Nurse, Sue Barnes holds a Travel Clinic on Tuesday for advice on healthy travelling, malaria prevention and travel vaccinations. Some vaccinations need to be given well in advance of travelling, so please check your requirements as early as possible by contacting us [6-8 weeks before your departure](#).

If you need to discuss your requirements please contact us on 01932 504450 and arrangements can be made to talk to our Practice Nurse.

You can also check what vaccinations you may need by visiting [www.fitfortravel.nhs.uk](http://www.fitfortravel.nhs.uk) [www.travelhealth.pro.org.uk](http://www.travelhealth.pro.org.uk) or [www.travelvaccinewise.co.uk](http://www.travelvaccinewise.co.uk)

Due to the time necessary for each appointment it is only possible for us to offer travel advice and vaccinations during our Travel Clinic.

### Travel vaccination fees for NHS patients registered with the Church Street Practice

In certain circumstances vaccinations requested by patients for the purpose of travel are not available on the NHS. In this instance the following charges will apply.

	£ (price per dose)
Rabies (full course x 3 injections*)	65.00
Hepatitis B (full course x 3 injections*) and/or booster	45.00
Hepatitis B Paediatric (full course x 3 injections*)	30.00
Japanese Encephalitis (full course x 2 injections*)	POA
Tickborne Encephalitis (full course x 3 injections*)	POA
Meningitis ACWY	70.00
Malaria Advice and <a href="#">Private Prescription</a>	25.00

Please note that our fee for malaria advice covers the administration costs involved in completing the private prescription and is payable at the time of request, if you then decide not to collect or use the prescription the fee will still apply.

\* A complete course for each vaccine is payable in full at the time of the first injection - for example the full cost for a course of rabies is £171.00

POA = Price on application

Vaccinations against Hepatitis A, typhoid, combined polio/ tetanus/diphtheria, combined hepatitis A & B and combined hepatitis A & typhoid are currently provided free of charge to NHS patients registered with the Church Street Practice. As we dispense these vaccines you are NOT required to pay a prescription charge.

Certain vaccines will need to be ordered on a named patient basis only and are available on a private prescription eg: Japanese Encephalitis for under 18's and Tick Borne Encephalitis. You will need to pay the Practice for the cost of this vaccine, which includes an administration charge of £15.00.

We are a [Yellow Fever Centre](#) and the vaccine is available to all patients whether registered with Church Street Practice or another practice at the same cost. Please note that this vaccine is not available under the NHS. £ 75.00

Yellow Fever Replacement certificate £ 15.00
